Exciting Changes on the Horizon

We sincerely hope you and your loved ones are enjoying the warmer weather and making the most of the longer days. We are looking forward to some exciting changes this year, including a move, this late fall, to a new practice location built with patient comfort in mind. Our new location, in the Palermo Professional Building, is just 10 minutes away from our existing practice. The building will be purpose-built for medical services and practitioners and our office will allow us to offer new technology with the same trusted level of care. This gives all of our patients convenient access to other medical services in the same location. We hope you will be as pleased as we are about the move.

New Name, Same Dependable Care

We are pleased to announce we will be changing

our name to **Palermo Village Dental** to coincide with our location change. You'll still see the same staff and doctors you always have and there will be complete continuity of care at this new location. Our new website, **palermovillagedental.com** will be launched this year and it will help keep you informed about our services and treatments. We encourage patients to visit our Facebook page where we will be posting information about the new office. Also, please feel free to contact our office with any questions you have about our new location.

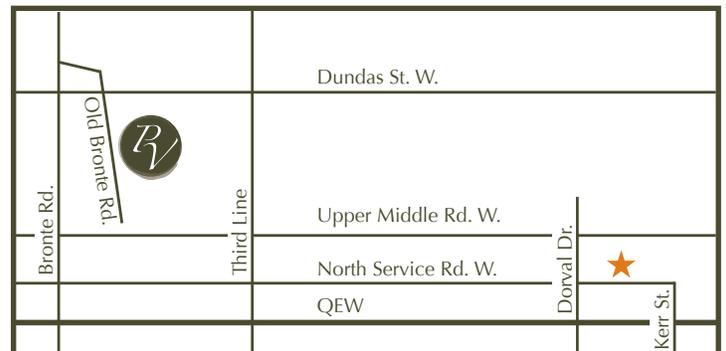

We look forward to seeing you this Summer and helping you achieve and maintain a healthy smile.

Best Wishes,

Dr. Christopher Blair and Dr. Nicholas Ng

Say It With A Great Smile!

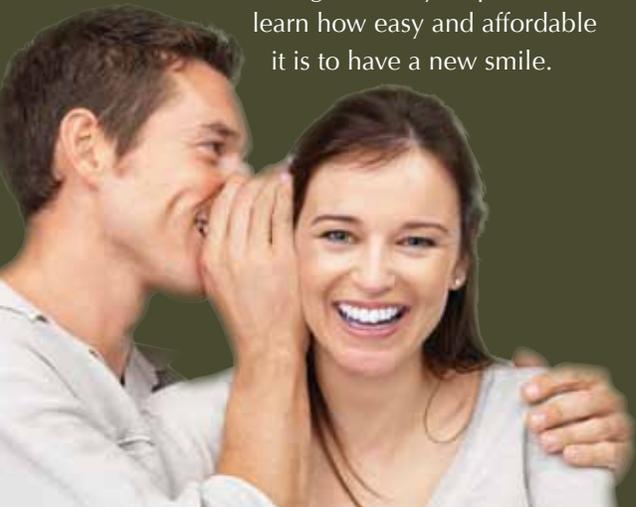

If your eyes are the windows to your soul, it has been said your smile expresses who you are as a person and in many cases is your calling card to the world. Whether at work or at play, you call on your smile every day to make a great first impression on people you are meeting for the first time while confidently interacting with those you already know.

For many people, their smiles work against them as they feel self-conscious and sometimes even embarrassed in times of joy and pleasure. It is these same people that wish they could have that great smile and do not realize that the smile of their dreams is much easier to attain than they would ever think.

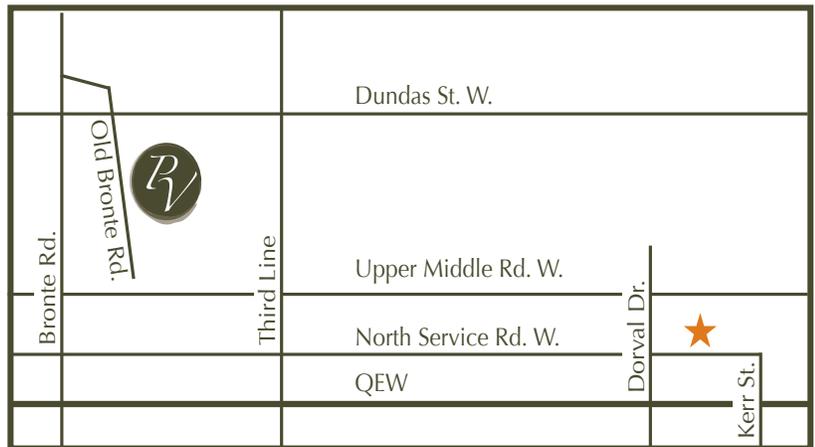

The truth is that more and more people are calling our dental office with questions about cosmetic dentistry and the options that might be available to improve the look and in some cases even the function of their smile. Cosmetic dentistry today features many amazing treatments ranging from simple teeth whitening to straightening, restoring and even replacing teeth. Some of these smile enhancing treatments can even be completed in as little as one or two appointments.

If your smile is not all that you want it to be, you owe it to yourself to explore the possibilities that cosmetic dentistry has to offer. We invite you to call our office today.

You might be very surprised to learn how easy and affordable it is to have a new smile.
